# MIND MAP EXAMPLE

# Monitoring & Evaluation

M&E (Monitoring and Evaluation) or MEAL (Monitoring, Evaluation, Accountability and Learning) processes increase **accountability** for the:

- resources we use
- responsibility we have
- goals we set

when serving marginalised communities and addressing important causes

Essentially, M&E helps us make sure we are really making an impact!

**M&E are most relevant with grant funders and institutions working extensively in the humanitarian space (iNGOs, NGOs and some FBOs)**

### **Strong M&E systems help:**

- keep track of our progress
- assess our impact
- readapt efforts to maximise efficiency

Generally, a good M&E system includes:

#### **Project Outputs**

Specific goals - overarching outcomes you hope to achieve with your efforts

#### **Performance Indicators**

Specific objectives - actions and measurable steps that you need to take to achieve a goal

#### **Activities and Implementation Period**

Methods and timeline - subproject activities to measure and its respective timeframes

# Homework

***Deadline: Sunday, 26th May***

In your own refugee-led organisation,

## Explore Fundraising Avenues:

- discuss which of the three fundraising avenues (i.e. grants, proposals, crowdfunding) are you most equipped to explore by identifying the resources (i.e. capacity, skill, manpower) your organisation currently has, if applicable
- explore what other resources you are lacking and need to be able to pursue other fundraising avenues

## Develop a Proposal Outline

- draft a proposal outline using a skeleton or mind map format
  - you may choose any relevant initiative to propose as an organisation (e.g. project, advocacy, organisational development, operations costs)

# Reflections

## Past | Workshop

- Reflect on the past five sessions and what you've learnt (10m)
  - What were some key takeaways?
